DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 – 19 and 24, drawn to a method of indicating the presence of mechanical impact on a material, classified in class 73, subclass 12.01.
 - II. Claim 20, drawn to an article, classified in class 73, subclass 864.72.
 - III. Claims 21 - 23, drawn to a method of establishing a design standard for a low ductility material, classified in class 73, subclass 768.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I - III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, Invention II has separate utility from Invention I such as a plurality of microcapsules. Invention III has separate utility from Invention I such as tensile elongation to failure. Invention III has separate utility from Invention II such as a matrix comprising a paint binder.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II and Group III restriction for examination purposes as indicated is proper.
5. Because these inventions are distinct for the reasons given above and have acquired a

Art Unit: 2855

separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
